

# Join the Coastal Plain Chapter, Georgia Native Plant Society!

*Become a part of the effort to conserve and promote native plants that are vital to our ecosystems, pollinators, and other wildlife.*

Enjoy membership benefits; receive our newsletters (Coastal Plain Chapter and GNPS) to learn about educational opportunities including classes, symposia, conservation work, volunteer opportunities, field trips, plant rescues and other special events around the state.

- **Contribute** to conservation efforts such as plant rescues, propagation of native plants for conservation, and out-planting of rescues into protected areas such as state parks and WMA's.
- **Receive** notifications of chapter native plant sales and buy plants that are hard to find in traditional nurseries at a **10% discount to members**.
- **Learn** how to landscape your garden using native plants for all seasons while helping support pollinators and bird species in your yard.
- **Join** in special projects like native plant gardens in schools and public parks, libraries, and conservation areas.
- **Become** a community scientist by joining GPCA, being a Plant Guardian, participating in Weed Wrangles, and the Great Georgia Pollinator Count.

Join online <https://gnps.org/get-involved/become-member/> be sure to select "Coastal Plain Chapter." Or join by using the paper form on the back page.
